Overview:

Lawrence G. Walters is an accomplished civil rights attorney, a respected public speaker, and a widely-published author. His focus has been on the fields of Constitutional Law, Gaming Law, Intellectual Property, and Internet Law. His website, www.FirstAmendment.com is a frequently-consulted site for information relating to cutting-edge legal issues.

Current Position: Attorney At Law [25+ Years]

Owner – Lawrence G. Walters, PA
d/b/a [Walters Law Group](#) (1993-pres.)

Current career involves representing clients in a variety of industries involved in controversial or cutting-edge legal issues relating to free expression, gaming law, Internet law and intellectual property. Cases often involve First Amendment concerns, constitutional challenges to legislation, advertising & promotion law, technology issues, domain name disputes, defamation, copyright and trademark litigation, and white collar criminal defense. Typical clients include non-profit advocacy groups, website operators, software developers, gaming interests, photographers, online service providers, social networking systems, bookstores, artists, entertainers, and trade associations.

Mr. Walters manages a boutique law firm, and oversees several lawyers, paralegals, and staff employees. In addition to maintaining a full caseload, he is responsible for all marketing and promotional activities, as well as firm administration, billing, budgeting and supervision. A significant amount of his time is devoted to academic writing and speaking engagements.

Prior Legal Experience:

After graduating from law school with honors in 1988, Mr. Walters became affiliated with several law firms prior to forming Walters Law Group. He has experience with mid-sized and small firms, and he has worked in a variety of practice areas, including commercial litigation, construction law, banking regulation, insurance defense, intellectual property, personal injury, criminal defense, administrative law, and contracts. In 1994, he began to concentrate on First Amendment law, particularly as applied to cyberspace.
